

SB4Consulting is a consulting company specialized in project engineering.

We support you in your proposal set-up and management of your research and innovation project (national & international).

PROPOSAL WRITING

SB4Consulting works with you at all stages of the project bidding process, identification of the most relevant calls for proposals, consortium building, writing proposal, coordination of administrative and financial forms , final online submission of proposal.

NEGOTIATION

Once your project (EU) is selected, we help you to analyse the Evaluation Summary Report and negotiate with the European Commission.

PROJECT MANAGEMENT

After your proposal is awarded for funding, SB4Consulting assures the administrative, legal and financial management tasks.

DISSEMINATION

We help you with the definition of your dissemination plan: creation and management of websites, creation and writing of dissemination tools, organisation of events.

NETWORKING

Are you seeking a partner?We can help you to find the right partner based on our network in both public and private sectors.
